

## ROTOR BRUSH

Model		Line breadth	Height
<b>B5 800</b>	unilateral	min. 2,2 - max. 3,2 m	min. 0,4 - max. 0,6 m
<b>B5 1300</b>	unilateral	min. 2,4 - max. 3,8 m	min. 0,4 - max. 0,6 m
<b>B10 FRONT</b>	bilateral	min. 2,4 - max. 3,8 m	min. 0,4 - max. 0,6 m
<b>B10 HECK</b>	bilateral	min. 2,4 - max. 3,8 m	min. 0,4 - max. 0,6 m

### Application:

For cleaning the tree line from sawn timber and foliage.

### Specifics:

For front- and rear machinery,  
as well as for different types of mowers and apparatus.  
Tree damaging by the brushes is absolutely excluded.  
The cleaning is possible on all terrain.

## HERBICIDAL MACHINE

Model		Line breadth	Height
<b>U 140</b>	unilateral	min. 1,8 - max. 3,6 m	min. 0,22 - max. 0,5 m
<b>U 190</b>	bilateral	min. 1,6 - max. 2,2 m	min. 0,22 - max. 0,5 m
<b>U 280</b>	bilateral	min. 2,4 - max. 3,2 m	min. 0,22 - max. 0,5 m
<b>U 300</b>	bilateral	min. 2,6 - max. 3,4 m	min. 0,22 - max. 0,5 m
<b>U 390</b>	bilateral	min. 3,0 - max. 4,0 m	min. 0,22 - max. 0,5 m

### Application:

Herbicidal thinning for fruit- and wine monoculture.  
It's possible to use liquid fertilizer.

### Specifics:

Adaptable for tractors with front or rear hydraulic systems.  
The tanks made of soft material, flip by hitting the tree forward  
or backward, therefore tree damaging is absolutely excluded.  
Low construction. Autonomous lifting and sagging of both  
spraying arms.

## TREE PLANT MILL TYP A

Model		Line breadth	Trench broadness	Trench depth
<b>Maulwurf</b>	unilateral	min. 2,4 - max. 3,6 m	min. 0,25 - max. 0,55 m	min. 0,1 - max. 0,4 m

### Application:

Allows combined milling of the trench and slackening the ground.

### Specifics:

Left roots get cut in to small pieces and don't cast out anymore. An exact interception is possible in case of lines with pillars.

## TREE PLANT MILL TYP B

Model		Line breadth	Trench broadness	Trench depth
<b>Maulwurf</b>	unilateral	min. 2,6 - max. 3,6 m	min. 0,25 - max. 0,55 m	min. 0,1 - max. 0,4 m

### Application:

Allows combined milling of the trench and slackening the ground.

### Specifics:

Left roots get cut in to small pieces and don't cast out anymore. An exact interception is possible in case of lines with pillars. The steel framework can be remain.

**The steel framework can be remain.**
